

Improving Your Listening Skills –

“Can You Hear Me Now?”

Leadership
Strategies 

WHY IT WORKS

With proven, research-based assessment data at the center of this course, Can You Hear Me Now? provides a personalized learning experience for each participant. Through the use of relevant video and hands-on, experiential learning activities, participants discover how to successfully communicate with others by modifying their listening styles when communicating with clients, direct reports, peers, and their superiors, creating efficient, productive, and effective work environments.

LEARN HOW TO

- Apply insights for your listening approaches, including your strengths and challenges
- Recognize and use effective approaches for different listening situations
- Develop action plans for applying your new listening skills

IDEAL FOR

- **Anyone whose success is dependent on effective communication**
- **Anyone seeking to enhance their productivity and effectiveness in all areas through improving this critical skill.**

DURATION

1 - 2 days

FORMAT

In-person

Virtual

OBJECTIVES

- Determining the role that listening is playing in your communication success (or failure)
