45

PRINCIPLE 4. POWER OF THE PEN

<ul style="list-style-type: none"> A. Write First, Discuss Second B. Write What is Said C. Add your Words Discriminately D. Ask, Don't Tell E. Write So They Can Read It F. Use Additive Editing 	<ul style="list-style-type: none"> G. Avoid Lulls While Writing H. Assign an Order to Your Speakers I. Use Multiple Flip Charts J. Employ the Right Recording Tool K. Post According to Your Wall Plan
--	---

47

Write First, Discuss Second

- Record what is said without regard to value or completeness
 - If what is said is incomplete...**Record it!**
 - If what is said can be improved upon...
 - If what is said is not what you were looking for...
 - If what is said is wrong...
Still Record It!

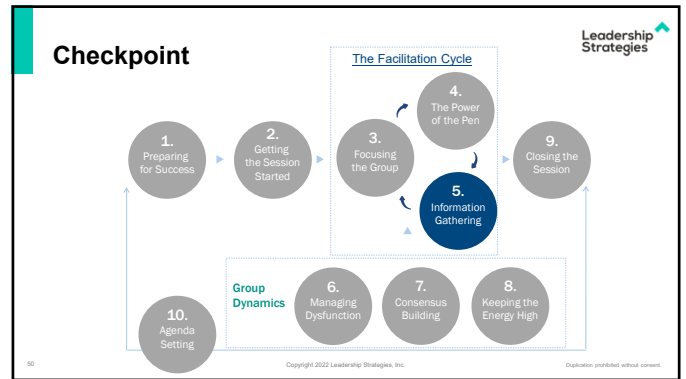

- By recording what is said, you are saying "Thank You" for making a contribution
- You can use your questioning techniques to make sure that the comment is refined or deleted later

48

Write What is Said, Not What You Heard

- Record as many of the speaker's words as is necessary
- It is not necessary to record all the speaker's words
- If you are not certain what was said, ask for confirmation, or **ask for the headline**

49

50

Standing Poll#4: True or False?

When formulating questions to get lots of ideas, the most important attribute of the question is that it is open-ended.

- Answer:** FALSE!
- Why:** The key is to formulate a question that helps the participants **VISUALIZE THE ANSWERS!**

51

52

- C. Float Ideas if Necessary
- D. List to Gather Details
- E. Brainstorm to Generate Ideas
- F. Group to Categorize
- G. Prioritize to Identify Key Items
- H. Lobby to Gain Buy-In

53

The Starting Question

You are interviewing a group of school registrars to talk with them about the scheduling process. Which is the better starting question? Why?

Question Type A
The first thing we want to talk about are inputs. What are the inputs to the scheduling process?

Question Type B
If you were about to develop the school schedule, what is the information you would need to have close by?

Ask starting questions that draw a vivid image of the answers!

54

Ask Great Starting Questions

- Three parts to a great starting question
 - **Begin with an image building phrase** (“think about”, “imagine”, “consider”, “if”)
 - **Extend the image to the answers** (at least two phrases)
 - **Ask the direct question** (Type A) to get the information you want

55

Ask Great Starting Questions

You want the participants to identify the steps in the hiring process.

Begin with an image building phrase...

- “Think about the last time your hired someone.”

Extend the image to the answers... Synonyms!

- Think about all the things you had to do to get that person hired, all the steps you had to go through, all the people you had to talk with, the forms and everything.

Ask the Type-A question?

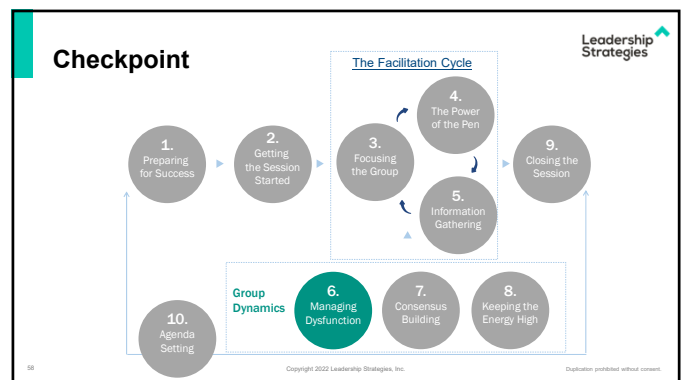

- “What are the steps in the hiring process?”

56

Ask Great Starting Questions

- **When do you use a Type-B?**
 - At the beginning of every agenda item
- **It takes preparation!**
 - If you don’t prepare, you will most likely use a Type-A
- **Our Recommendation:**
 - Create a list of Type-B questions for the standard sessions you facilitate.
