

Project Execution

FACILITATED CONSULTING SERVICE

Leadership
Strategies 

Overview — Facilitated Session

Even when projects start well, execution can drift — deadlines slip, risks escalate, communication breakdown, and accountability is lacking. This consulting engagement provides a disciplined governance model, proactive project leadership, and hands-on facilitation to ensure high-priority initiatives stay on track and deliver results.

We work alongside the project leader and team to develop execution discipline, transparency, and issue resolution.

Note: This can be combined with the Project Planning Facilitated workshop.

Objectives

To develop a high level, executable project plan, and governance process to deliver an on time, on budget project achieving the stated project objectives. To establish ownership, commitment, and accountability.

Outcome

A project execution process and plan to achieve the project desired results. All aligned to define success and accelerate execution.

Ideal For

Executive Sponsors, Project Managers responsible for major strategic initiatives. Whether a new project or to get a troubled project back on track.

- New system implementations (ERP, CRM, WMS, etc.)
- Major process transformation initiatives
- Product development & commercialization
- Operational excellence / continuous improvement programs
- Merger integration / organizational change
- Market research and surveys

Primary Deliverables

- High level project plan for the total project
- Network Diagram with alignment and dependencies across multiple project parts.
- Governance structure: cadence, and roles.
- KPI tracking & business benefit validation.
- Updated risk/issue/action management.
- Change control process.
- Project milestones.

Agenda — Full Day (8 Hours)

Duration Options

- Full-Day (8 hours) — preference in person.
- Can be customized for virtual, in-person, or blended delivery formats.
- Includes prework to maximize session effectiveness

Format

Training offered virtually, in-person, or blended delivery formats.
